

UNIVERSITI TEKNOLOGI MARA KELANTAN
INDUSTRIAL TRAINING REPORT

Maziah Mahmud

February 10, 2016

Contents

1	Laplace Transformation	1
1.1	Background of Industrial Training	1
1.2	Background of Organization	1
1.3	Background of Department Attached	1
1.4	Background of Department Attached	2
1.5	Task 1	3
1.5.1	Introduction	3
1.5.2	Implementation	3
1.5.3	Result and Discussion	3
1.6	Task 2	3
1.6.1	Introduction	3
1.6.2	Implementation	3
1.6.3	Result and Discussion	3
2	CONCLUSION AND RECOMMENDATIONS	4
2.1	Benefits of Assignments	4
2.2	Summary of Industrial Training	4

List of Tables

Chapter 1

Laplace Transformation

1.1 Background of Industrial Training

According to [?], According to solitary is a nonlinear. KdV equation is the balance between dispersion nonlinear[?]. KdV eqn had been study by [?].

Formula

. A new method was proposed by [?]

Apa saja. According to [?]

1.2 Background of Organization

Figure 1.1: Lihat gambar jpg wee

1.3 Background of Department Attached

Figure 1.2: Tengok Graf dari Maple wee

1.4 Background of Department Attached

Chapter 2

ASSIGNMENTS

2.1 Task 1

2.1.1 Introduction

2.1.2 Implementation

2.1.3 Result and Discussion

2.2 Task 2

2.2.1 Introduction

2.2.2 Implementation

2.2.3 Result and Discussion

Chapter 3

CONCLUSION AND RECOMMENDATIONS

3.1 Benefits of Assignments

3.2 Summary of Industrial Training
